

MOSSES RECENTLY FOUND IN FORMOSA

Chung K'uei Wang

In recent years some Japanese and American bryologists actively explored Formosa. Satoshi Nakanishi visited the island in the course of the Kobe University Scientific Expedition to Taiwan in 1963. He did fairly extensive exploring in the vicinity of Hohuan Shan and those surrounding areas of Yu Shan (Mt. Morrison). He collected a few significant bryological specimens and found a rich assortment of species. As a consequence, a number of mosses new to Formosa were described from his collections in several issues of the *HIKOBIA*, those of *THE JOURNAL OF JAPANESE BOTANY*, and some of the *MISCELLANEA BRYOLOGICA ET LICHENOLOGICA* in the next year by various authors. Later, Zennosuke Iwatsuki and Aaron J. Sharp made a bryological excursion to the north and central Formosa in the course of the Hattori-Tennessee Cooperative Bryogeographic Expedition to Taiwan, India and the Philippines in 1965. They were in Taiwan about a month. Both of them enjoyed exploring and collecting on the island. The results of their extensive field bryological activity amount to more than 3000 collections. More recently Hiroshi Inoue visited the island on several occasions and collected in various parts of the island.

During this period Akira Noguchi and Z. Iwatsuki also re-examined critically some of the Asiatic species in question. As a consequence, many names of Formosan species are revised and, hence then, the range of these species are extended.

Since it has been noted that Formosa was a very interesting region from the phytogeographical point of view, but the study of the moss flora of the island was still incompletely done, it was felt that the bringing together of the knowledge regarding the moss species recently known to occur on the island for publication might be informative. Naturally, this publication is also meant to supplement the moss flora of Formosa.

The writer has been greatly indebted to Dr. Z. Iwatsuki of the Hattori Botanical Laboratory for his kind help in various ways. He also expresses here his cordial thanks to Dr. Hisatsugu Ando of Hiroshima University for his encouragement.

Enumeration of the Species

Fissidentaceae

Fissidens bryoides Hedwig, Spec. Musc. Frond. 153 (1801); Shin, Fissident. Jap. 56 (1964).

Fissidens synoicus Sullivant, Musci Hep. U. S. East Mississippi Riv. Add. Corr. 103 (1856).

***Fissidens gymnandru* " Buse, sensu Berger, Journ. de Bot. 12: 291 (1898).**

Fissidens taiwanensis Herzog et Noguchi, Journ. Hattori Bot. Lab. **14**: 57, f. 18 (1955).

Loc. **Hsinchu:** Luchangta Shan, Naoliao-Chingchuan, Wufeng Hsiang, alt. 1300 m. (C. K. Wang-1681, April 2, 1962); **Taichung:** mountainous region, alt. 1200 m.

Hab. On rock in moist shaded place in evergreen hardwood forest.

Distr. China, Ryukyu, Japan, Himalaya, Caucasus, Siberia, Europe, North America.

Fissidens filicinus Dozy et Molkenboer, Musc. Frond. Nov. Spec. ex Archip. Ind. et Jap. **7** (1844) fide Dixon, Bryologist **46**: 131 (1943).

Fissidens japonicus Dozy et Molkenboer, Pl. Jungh. Fasc. **3**: 313 (1854).

Fissidens nobilis Griffith, sensu Sakurai, Bot. Mag. Tokyo **51**: 60 (1937).

Fissidens schismoides Sakurai, Bot. Mag. Tokyo **53**: 60, f. 3 (1939).

Loc. **Taipei:** Hsintien-Wulai; **Hsinchu:** Luchangta Shan, Naoliao-Kuei Shan, Wufeng Hsiang, alt. 1500 m. (C. K. Wang-1539 & 1543, Mar. 31, 1962); **Kaohsiung:** Maya Tsun, Maolin Hsiang, alt. 700 m. (C. K. Wang-993, Mar. 28, 1961); **Ilan:** Tiensungpi, Tuchang.

Hab. On rock in evergreen hardwood forest.

Distr. Botel Tobago, China, Philippines, Ryukyu, Japan, Thailand, Viet-Nam, Malay Pen., Burma, N-India, Ceylon, Sumatra, Borneo, Celebes, Bonins.

Fissidens grandifrons Bridel, Spec. Musc. **1**: 170 (1801); Shin, Fissident. Jap. **127**, f. 33-34 (1964).

Fissidens planicaulis Bescherelle, Ann. Sci. Nat. ser. 7, Bot **17**: 335 (1893).

Fissidens diversiretis Brotherus, Symbol. Sinic. **4**: 11 (1929).

Fissidens grandifrons Bridel var. *planicaulis* (Bescherelle) Noguchi, Journ. Hattori Bot. Lab. **7**: 68, f. 8 (1952).

According to Noguchi the dorsal laminae of leaves of the plants from Japan and Formosa have more layers of thick-walled cells, while in those from North America and Asiatic mainland the dorsal laminae are largely composed of two layers of thick-walled cells. Consequently, Noguchi considers the Japanese and Formosan plants as a varietal form of *F. grandifrons*. However, after the critical study of the specimens of *F. grandifrons* from North America, Pakistan and Formosa, together with those of *F. planicaulis* of Japan, Shin is conceived that they are belonging to one and the same species, i. e. *F. grandifrons*. The writer agrees with the opinion of Shin.

Loc. **Taichung:** Li Shan, Hoping Hsiang; **Nantow:** Lolo and Tuikuan, Hsini Hsiang, alt. 1600-2200 m.; **Ilan:** Taiping Shan, Tatung Hsiang, alt. 2000 m.; **Hualien:** Nunkao Shan, Hsiulin Hsiang, alt. 2800 m. and Pilu Shan, Hsiulin Hsiang, alt. 2200 m. (C. K. Wang-10296, Oct. 9, 1966).

Hab. On rocky cliff under water fall and on rock in running water in creek in evergreen hardwood forest.

Distr. China, Japan, NW-Himalayas, Pakistan, Central Asia, Africa, Mediterranean, Europe, North America.

Fissidens gymnogynus Bescherelle, Journ. de Bot. **12**: 292 (1898); Shin, Hikobia **3(4)**: 299 (1963).

Fissidens tokubuchii Brotherus. Hedwigia **38**: 209 (1809).

Fissidens rubritheca Sakurai, Bryologist **39**: 4, pl. 2, f. 9-11 (1936).

Fissidens iwasakii Sakurai, Bot. Mag. Tokyo 53: 59, f. 1 (1939).

Loc. *Nantow*: Tungpu-Lolo, alt. 1385 m. and Lolo-Tuikuan, alt. 1700 m., Hsini Hsiang.

Hab. On rock and bark of oak (*Quercus* sp.)

Distr. Japan and Korea.

Fissidens protonemaecola Sakurai, Bot. Mag. Tokyo 47: 741, f. 4 (1933); Mizushima, Journ. Jap. Bot. 32: 29 (1957).

Fissidens gemmaceus Herzog et Poiter de la Varde, Journ. Hattori Bot. Lab. 14: 55, f. 17 (1955).

Loc. *Taipei*: Karobetsu, alt. 250 m.

Hab. On soil in shaded place.

Distr. Japan.

Fissidens taxifolia (Linnaeus) Hedwig, Spec. Musc. Frond. 155, pl. 39, f. 1-5 (1801); Nakanishi, Hikobia 3(4): 319 (1963).

Hypnum taxifolium Linnaeus, Spec. pl. 2: 1122 (1753).

Fuscina taxifolia Schrank, Baiers, Fl. 2: 451 (1789).

Dicranum taxifolium Sibth, Fl. Oxon. 279 (1794).

Skitophyllum taxifolium La Pyl, in, Desv. Journ. Bot. 60, t. 35, f. 10 (1813).

Fissidens nipponensis Sakurai, Bot. Mag. Tokyo 47: 743 (1933).

Schistophyllum taxifolium Bridel, mss.

Loc. *Nantow*: Ho She, Hsini Hsiang, alt. 1200 m.

Hab. On soil in moist shaded place in evergreen hardwood forest.

Distr. Ryuku, Japan, Korea, Sakhalin, Himalayas, Nepal, Sikkim, NW-India, Persia, Caucasus, Europe, Canary Isl., Madeira, North America.

Bryoxiphiaceae

Bryoxiphium norvegicum (Bridel) Mitten subsp. ***japonicum*** (Berggren) Löve et Löve, Bryologist 56: 197 (1953); Nakanishi, Hikobia 4(1-2): 23 & 25, f. 1 (1964).

Eustichia japonica Berggren, in Gehee, Flora 64: 290 (1881).

Eustichia savatieri Husnot, Revue Bryol. 10: 85 (1883).

Bryoziphium savatieri Mitten, Trans. Linn. Soc. Lond. ser. 2, Bot. 3: 153 (1891).

Bryoxiphium japonicum (Berggren) Löve ex Lee, Acta Phytotax. Sinica 7: 254 (1958).

The plant is known to be of wide occurrence in eastern Asia. At present it has been reported from several localities from Lombok and Luzon Island in the south, to Sakhalin island, Amur, and Kamchatka in the north. As is known, sporophytes are lacking in the Philippine and Formosan collections, although the materials collected are all female plants with mature archegonia. In the Formosan plant, however, the perichaetial leaves are less serrate than those in Philippine and Japanese plants.

Loc. *Kaohsiung*: Yu Shan*, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2630 m. & 2660 m.

Hab. In dense glossy masses on over-hanging shale cliffs by the stream.

*Known also as Mt. Morrison.

Distr. China, Philippines, Japan, Korea, Amur, Sakhalin, Kamchatka, Lombok.

Dicranaceae

Dicranodontium uncinatum (Harvey) Jaeger, Ber. S. Gall. Naturw. Ges. 1877-78: 380 (1880); Noguchi, Journ. Jap. Bot. 35(10): 304 (1960).

Thysanomitrium uncinatum Harvey, in Hooker, Ic. Pl. rar. pl. 22, f. 5 (1837).

Loc. **Chiai:** Ali Shan, Wufeng Hsiang, alt. 2300 m., and Yu Shan, Yushankou—Yushan Peak; **Ilan:** Taiping Shan, Tatung Hsiang

Hab. On humus and decayed logs.

Distr. Philippines, Japan, Viet-Nam, Laos, Thailand, Malay Pen., Manipur, Moluccas, Java, E-India, Himalayas, Burma, Nepal.

Brothera leana (Sullivant) C. Mueller, Gen. Musc. 259 (1901); Nakanishi, Hikobia 3(4): 321 (1963).

Campylopus leanus Sullivant, A. Gray Man. ed. 2, 619 (1856).

Loc. **Nantow:** Yu Shan, near Tuikuan, Hsini Hsiang, alt. 2050 m.

Hab. On decayed log in evergreen hardwood forest.

Distr. China, Philippines, Japan, Himalaya, Pakistan, Amur, North America.

Dicranum fragilifolium Lindberg, Bot. Not. 1857: 147 (1857); Nakanishi, Hikobia 3(4): 324 (1963).

Dicranum yezomontanum Noguchi, Journ. Hattori Bot. Lab. 8: 18, f. 9 (1952).

Loc. **Nantow:** Yu Shan, Hsini Hsiang, alt. 3200 m.

Hab. On basal portion of trunk of tree in fir forest.

Distr. Japan, Siberia, North Europe, Scotland, Arctic North America, Labrador and Alaska.

Dicranum japonicum Mitten, Trans. Linn. Soc. ser. 2, Bot. 3: 155 (1891); Nakanishi, Hikobia 3(4): 321 (1963).

Dicranum japonicum Mitten var. *aomoriense* Bescherelle, Ann. Sci. Nat. ser. 7, Bot. 17: 332 (1893).

Dicranum curvipes Sakurai, Jap. Bot. 27: 154, f. g (1952).

Dicranum curvipes Sakurai var. *majus* Sakurai, Jap. Bot. 27: 155 (1952).

Dicranum eurydictyon Bescherelle var. *pallidum* Sakurai, Journ. Jap. Bot. 27: 153 (1952).

Loc. **Nantow:** Tuikuan, Hsini Hsiang, alt. 2300 m.

Hab. On forest floor in hardwood and conifer mixed forest.

Distr. China, Japan, Korea, Manchuria, Sakhalin.

Dicranum majus Turner, Hib. 59 (1804); Nakanishi, Hikobia 3(4): 324 (1963).

Dicranum polysetum Bridel, Spec. Musc. 1: 174 (1806).

Dicranum scoparium var. *a. majus* Hooker et Taylor, Musc. Br. 58, t. 18 (1818).

Dicranum scoparium Taylor, Ann. Mag. Nat. Hist. 12: 129 (1843).

Dicranum takakii Sakurai, Journ. Jap. Bot. 27: 153 (1952).

Loc. **Nantow:** Yu Shan, near Patungkuau, Hsini Hsiang, alt. 3170 m.

Hab. On soil rich in humus and rarely on decaying logs.

Distr. China, Japan, Korea, Sakhalin, Siberia, Caucasus, Europe, North America.

Dicranum mayrii Brotherus, Hedwigia 38: 207 (1899); Takaki, Journ. Hattori Bot. Lab. 27: 76 & 77, f. 1, a-t (1964).

Dicranum eushistodon Cardot, Bull. Herb. Boiss. ser. 2, 8: 331 (1908).

Bryum suzukii Brotherus, nom. nud.
Bryum ventricosum var. *tobae* Sasaoka, mss.

Loc. **Chiai:** Ali Shan, Tzechung, Wufeng Hsiang, alt. 2600 m.; **Nan:** Taiping Shan, Tatung Hsiang.

Hab. On moist rocks or soil, often partly submerged in water.

Distr. Japan, Korea, Kashmir, and Pakistan; almost cosmopolitan.

Bryum pseudotriquetrum (Hedwig) Schwaegrichen var. **gracilens** (Cardot) Ochi, Bry. Jap. 81 (1959); Shin, Hikobia 4: 131 (1964).

Bryum gracilens Cardot. Bull. Soc. Bot. Geneve, ser. 2, 1: 128 (1909).

Loc. **Chiai:** Ali Shan—Yushankou, Wufeng Hsiang; **Nantow:** Patungkuán, Hsini Hsiang, alt. 3000 m., and Yu Shan.

Hab. On soil and rock in shaded place.

Distr. Japan.

Bryum pulchro-alare Brotherus, Rev. Bryol. 56: 5 (1929); Ochi, Bry. Jap. 98 & 99 (1959).

Loc. **Nantow:** Patungkuán, Hsini Hsiang; **Taitung:** Peiyuan Tsun, Tungho Hsiang, alt. 400 m. (C. K. Wang 911, Mar. 24, 1961).

Hab. On rock submerged in water in evergreen hardwood forest.

Distr. Japan.

Bryum yasudae Ochi, Bry. Jap. 97 & 98 (1959).

Anomobryum yasudae Brotherus, Oefv. Finsk. Vet.-Soc. Foerhandll. 62: 16 (1919-20).

Anomobryum patulifolium Dixon, mss.

Loc. **Nantow:** Lolo, Hsini Hsiang; **Kaohsiung:** Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2670 m.

Hab. On moist rock near stream in evergreen hardwood and conifer forest.

Distr. Japan.

Intergeneric hybrid [*Bryum argenteum* var. *lanatum* (P. Beauvois) B.S.G. × *Brachymenium exile* (Dozy et Molkenboer) Bosch et Lacoste] Ochi, Journ. Jap. Bot. 29: 49, f. 1 (1954); Shin, Hikobia 4: 131 (1964).

Loc. **Chiai:** Ail Shan—Yushankou, Wufeng Hsiang; **Nantow:** Yu Shan, Hsini Hsiang.

Hab. On soil.

Distr. Japan and Viet-Nam.

Mniaceae

Mnium striatum Mitten, Trans. Linn. Soc. Lond. ser. 2, Bot. 3: 166 (1891); Nakanishi, Hikobia 3(4): 326 (1963).

Mnium glabrescens Kindberg, Notes on Canada Bryol. (1893).

Loc. *Kaohsiung*: Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2670 m.

Hab. On moist rock near stream.

Distr. Japan and North America.

Hypnodendraceae

Hypnodendron vitense Mitten, in Seemann, Fl. Vit. 401 (1865-73); Noguchi, Sci. Rep. Tohoku Univ. ser. 4, Bio. 29(3-4): 146 (1963).

Hypnodendron formosicum Cardot, Beih. Bot. Centralbl. 19: 147, f. 39 (1905).

Having examined several collections of the plant from the Ryukyu Islands and that from the Philippines, Noguchi concludes that *H. formosicum* is identical with *H. vitense*.

Loc. *Taipei*: Tatum Shan, Sanchih Hsiang, alt. 500 m.; *Miaoli*: Chunghsueh Shan, Taian Hsiang, alt. 2400 m. (C. K. Wang-799, Oct. 18, 1960).

Hab. On soil rich in humus in hemlock, pine, and cedar mixed forest.

Distr. Philippines, Ryukyu, Fiji, and Solomon Islands.

Bartramiaceae

Bartramia halleriana Hedwig, Spec. Musc. Frond. 164 (1801); Nakanishi. Hikobia 3(4): 321 (1963).

Bryum norvegicum Gunnerus, Fl. Norveg. 2: 138 (1772).

Loc. **Taichung:** Hsiaohsueh Shan—Tahsueh Shan, Hoping Hsiang, alt. 2600 m. (C. K. Wang 1220, May 8, 1961).

Hab. On bark of hemlock tree in pine and hemlock mixed forest.

Distr. China, Japan, North America and South America.

Trachypodaceae

Trachypus bicolor Reinwardt et Hornschuch, Nov. Act. Acad. Leop. Carol. 14, P. 2, Suppl. 708, t. 39 (1826); Horikawa & Ando, Nature & Life in Southeast Asia 3: 13 (1964).

. *Trachypus haleakalae* Brotherus, Bull. Soc Bot. Ital. 24 (1904).

Loc. **Hsinchu:** Kuei Shan, Wufeng Hsiang, alt. 2300m. (C. K. Wang-1594 & 1622a, April 1, 1962); **Taichung:** Anma Shan, Hoping Hsiang, alt. 2300 m. (C. K. Wang-639, Feb. 15, 1960) and Tahsueh Shan—Touying Shan, Hoping Hsiang, alt. 3200 m. (C. K. Wang-1301, May 10, 1961).

Hab. On trunk of tree and on soil covering rock in hardwood and conifer mixed forest, and on rock in fir forest with luxuriant undergrowth of alpine bamboo.

Distr. China, Philippines, Japan, Ceylon, India, Nepal, Thailand, Java, Sumatra, Celebes, New Guinea, Fiji, Hawaii.

Duthiella flaccida (Cardot) Brotherus var. *media* (Noguchi) Zanten, Blumea 9: 569 (1959).

Duthiella media Noguchi, Journ. Hattori Bot. Lab. 2: 61, f. 14 (1947).

Loc. **Taipei:** Ayu Shan, Wulai Hsiang, alt. 1400m.

Hab. On rock.

Distr. Endemic.

Meteoriaceae

Chrysocladium phaeum (Mitten) Fleischer, Musc. Fl. Buit. 3: 830 (1908); Noguchi, Journ. Hattori Bot. Lab. 28: 152, f. 4 (1965).

* *Meteorium phaeum* Mitten, Journ. Proc. Linn. Soc. Bot. Suppl. 1, 87 (1859).

Meteorium infuscatum Mitten, Journ. Proc. Linn. Soc. Bot. Suppl. 1, 91 (1859).

Papillaria tumido-aurea (C. Mueller) Renaud et Cardot, Bull. Soc. Roy. Bot. Belgique 71 (1902-03).

Chrysocladium robustum Noguchi, Trans. Nat. Hist. Soc. Formosa 24: 120 (1934).

Loc. **Chiayi:** Ali Shan, Tsechung, Wufeng Hsiang, alt. 2600 m.

Hab. Hanging from trunk of tree in conifer forest.

Distr. Sikkim.

Barbella enervis (Thwaites et Mitten) Fleischer, in E. & P., Nat. pflanzenfam. ed. 1, 3: 824 (1906); Noguchi, Journ. Hattori Bot. Lab. 28: 149, f. 2, 1-2 (1965).

Meteorium enerve Thwaites et Mitten, Journ. Linn. Soc. Bot. 13: 317 (1873).

Meteorium determesii Renaud et Cardot, Bull. Soc. Roy. Bot. Belgique 25 (1900).

Barbella determesii (Renaud et Crdot) Fleischer, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 824 (1906).

Barbellopsis sinensis Brotherus, Symb. Sin. 4: 83 (1929).

Barbella densiramea Brotherus, Rev. Bryol. n. ser. 2: 8 (1929).

Aptychopsis uii Sakurai, Bot. Mag. Tokyo 57: 471, f. 4 (1938).

Loc. **Taoyuan:** Fuwu Shan, Fuhsing Hsiang; **Hsinchu:** Luchangta Shan, Naoliao—Kuei Shan, Wufeng Hsiang, alt. 1700 m. (C. K. Wang-1548, Mar. 31, 1962) and alt. 1800 m. (C. K. Wang-1555, Mar. 31, 1962); **Kaohsiung:** Nanfeng Shan, Maolin Hsiang, alt. 1400 m. (C. K. Wang-1022, Mar. 29, 1961).

Hab. Hanging from branch and trunk of broad-leaved tree and on log in evergreen hardwood forest.

Distr. Philippines, Japan, Himalayas, Nilghiris, Ceylon, Lord Howe Island, New Caledonia, Australia.

Meteoriopsis squarrosa (Hooker) Fleischer, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 826 (1906); Yang & Lee, Bot. Bull. Acad. Sinica, n. ser. 5(2): 183 (1964).

Neckera squarrosa Hooker, Ic. Pl Rar. pl. 22, f. 3 (1837).

Meteorium squarrosum Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 87 (1859).

According to Iwatsuki both Horikawa's specimens (1935 & 1939) are identical with *M. formosana* Nog.

Loc. **Nantow:** Chitou, Luku Hsiang.

Hab. On cliff.

Distr. China, Philippines, Ceylon, India, Himalayas, Nepal, Malay Pen., Thailand, Indonesia. Malacca, Sumatra, Java.

Floribundaria sparsa (Mitten) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 822 (1906); Noguchi, Journ. Hattori Bot. Lab. 28: 150 & 151, f. 3, 1-6 (1965).

Meteorium sparsum Mitten, Journ. Proc. Linn. Soc. Bot. Suppl. 1, 158 (1859).

Meteorium hookeri Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 89 (1859).

Papillaria formosana Noguchi, Trans. Nat. Soc. Formosa 24: 119 (1934).

Loc. **Hsinchu.** Litung Shan, Chienshih Hsiang, and Luchangta Shan, Naoliao—Kuei Shan, Wufeng Hsiang, alt. 1700 m. (C. K. Wang-1548a, Mar. 31, 1962).

Hab. Hanging from branch and trunk of tree in evergreen hardwood forest.

Distr. India, Nepal, Himalayas.

Neckeraceae

Calyptothecium hookeri (Mitten) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 839 (1906); Noguchi, Bot. Mag. Tokyo 78: 63 & 64, f. 1-3 (1965).

Meteorium hookeri Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 86, pro parte (1859).

Meteoriella cuspidata Okamura, Journ. Coll. Sci. Imp. Univ. Tokyo 38(4): 34, f. (1916).

Calyptothecium sikkimense Brotherus, in sched.

Loc. **Hsinchu:** Yulo Shan, Chienshih Hsiang.

Hab. Hanging from branch of tree in evergreen hardwood forest.

Distr. China, Japan, Thailand, Himalayas, Khasia, Sikkim, and Burma.

Calyptothecium urvilleanum (C. Mueller) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 839 (1906); Noguchi, Bot. Mag. Tokyo 78: 66 (1965).

- Neckera urvilleanum* C. Mueller, Synops. Musc. 2: 52 (1851).
Calyptothecium praelongum Mitten, Journ. Linn. Soc. Bot. 12: 190 (1869).
Calyptothecium philippinse Brotherus, Monsunia 1: 48 (1900).
Calyptothecium japonicum Theriot, Le Monde des Plantes 9: 22 (1907).
Calyptothecium densirameum Brotoerus, Rev. Bryol. 56: 9 (1929).

Loc. **Taipei:** Wulai, Wulai Hsiang; **Hsinchu:** Luchangta Shan, Naoliao—chingchuan, Wufeng Hsiang, alt. 1300 m. (C. K. Wang-1676, April 2, 1962); **Kaohsiung:** Nanfeng Shan, Maolin Hsiang, alt. 1200 m. (C. K. Wang-1053, Mar. 29, 1961); **Pingtung:** Laii Hsiang; **ilan:** Taiping Shan and Tuchang Tsun, Tatung Hsiang; **Taitung:** upstream area of Luming Chi, Hungyeh Tsun, Yenping Hsiang, alt. 1100 m. (C. K. Wang-955, Mar. 26, 1961), and Wutou Shan, Peinan Hsiang.

Hab. Hanging from moist rock and trunk of tree in evergreen hardwood forest.

Distr. Philippines and Ryukyu.

Calyptothecium wightii (Mitten) Fleischer, Hedwigia 45: 62 (1905); Noguchi, Bot. Mag. Tokyo 78: 65, f. 7-8 (1965).

Meteoriom wightii Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 85 (1859).

Pterobryopsis subacuminata Brotherus et Paris, Rev. Bryol 34: 45 (907).

Calyptothecium formosanum Brotherus, Oefv. Finsk. Vet-Soc. Foerhandl. 62: 23 (1919-20)

Loc. **Pingtung:** Laii Hsiang.

Hab. Hanging from rock and branch of tree in evergreen hardwood forest.

Distr. China, Burma, and Nepal.

Neckera crenulata Harvey, in Hooker, Icon. Plant. Rar. t. 21, f. 6 (1836); Noguchi, Journ. Hattori Bot. Lab. 28: 154 (1965).

Neckera luzonensis Williams, Bull. N. Y. Bot. Gard. 8: 358 (1914).

Himantocladium strictum Dixon, Journ. Siam Soc. Nat. Hist. Suppl. 9(1): 30 (1932).

Himantocladium scabriisetum Dixon, Journ. Bombay Nat. Hist. Soc. 39(4): 784 (1937).

Calyptothecium luzonense (Williams) Bartram, Philip. Journ. Sci. 68: 235 (1939).

Loc. Without definite locality.

Hab. On trunk of tree.

Distr. China, Philippines, Thailand, Burma, Assam, Nepal, Himalayas.

Neckera konoii Brotherus ex Cardot, Bull. Soc. Bot. Geneve, ser. 2, 3: 277 (1911); Nakanishi, Hikobia 3(4): 322 (1963).

Loc. **Nantow:** Kuankao, Hsini Hsiang, alt. 2400 m.

Hab. On trunk of tree.

Distr. Japan.

Hookeriaceae

Distichophyllum collenchymatosum Cardot, Bull. Soc. Bot. Geneve, ser. 2, 3: 278 (1911); Yang & Lee, Taiwania 10: 79 (1964).

Distichophyllum gracilicaule auct. non Fleischer: Sakurai, Bot. Mag. Tokyo 47: 337 (1933).

Distichophyllum sinense Dixon, Hong Kong Natur. Suppl. 2, 22 (1933).

Distichophyllum tutigae Ihsiba, Trans. Sapporo Nat. Hist. Soc. **13**: 395 (1934).

Distichophyllum sikokuense Dixon, Bryol. n. ser. **13**: 14 (1942).

Distichophyllum acutifolium Dixon, Rev. Bryol. n. ser. **13**: 15 (1942).

Loc. **Ilan:** Chiaochi, Chiaochi Hsiang.

Hab. On wet rock near waterfall.

Distr. China, Ryukyu, Japan, and Hongkong.

Distichophyllum nigricaulle Mitten, Bryol. Jav. **2**: 19 (1891); Yang & Lee, Taiwania **10**: 80 (1964).

Distichophyllum elmeri Brotherus, Leafl. Philip. Bot. **2**: 656 (1909).

Loc. **Taipei:** Kankou, Wanli Hsiang.

Hab. On soil.

Distr. Philippines and Java.

Eriopsparviretus Fleischer, Laubmfl. Java **3**: 1008 (1908); Yang & Lee, Taiwania **10**: 81 (1964).

Eriopspicroblastus Brotherus, Philip. Journ. Sci. Bot. **8**: 82 (1913).

Loc. **Taipei:** Wen Shan, Wulai Hsiang, alt. 950 m.

Hab. On soil.

Distr. Philippines, Ryukyu, and Java.

Hookeriopsis sumatrana (Bosch et Lacoste) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, **3**: 942 (1907); Yang & Lee, Taiwania **10**: 84 (1964).

Pterygophyllum sumatranum Bosch et Lacoste, Bryol. Jav. **2**: 38 (1861).

Loc. **Taichung:** Anma Shan, Hoping Hsiang, alt. 2000 m; **Kaohsiung:** Nanfeng Shan, Maolin Hsiang, alt. 1200 m. (C. K. Wang-1082, Mar. 30, 1961).

Hab. On rotten wood and rock in evergreen hardwood forest.

Distr. Sumatra and Java.

Actinodontium raphidostegum (C. Mueller) Bosch et Lacoste, Bryol. Jav. **2**: 37, pl. 160 (1862); Iwatsuki, Journ. Jap. Bot. **39**(6): 180 (1964).

Hookeria raphidostega C. Mueller, Syn. **2**: 677 (1851).

Lepidopilum raphidostegum Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, **3**: 959 (1907).

Loc. **Nantow:** Chitou, Luku Hsiang, alt. 1200 m. (C. K. Wang-203, April 2, 1959), and Yu Shan, Hsini Hsiang.

Hab. On rock and on soil rich in humus.

Distr. Philippines, Celebes, Borneo, and Java.

Chaetomitrium acanthocarpum Bosch et Lacoste, Bryol. Jav. **2**: 44 (1862); Yang & Lee, Taiwania **10**: 75 (1964).

Loc. **Chiai:** Ali Shan, Wufeng Hsiang, alt. 2400 m.

Hab. On rock.

Distr. Java.

Chaetomitrium orthorrhynchum (Dozy et Molkenboer) Bosch et Lacoste, Bryol. Jav. **2**: 45 (1862); Yang & Lee, Taiwania **10**: 76 (1964).

Hookeria orthorrhyncha Dozy et Molkenboer, Ann. Sci. Nat. Bot **2**: 305 (1844).

Loc. **Taitung:** Changyuan, Changping Hsiang.

Hab. On branch of tree.

Distr. Philippines, Celebes, Borneo, Sumatra, Java.

Symphyodontaceae

Symphyodon perrottetii Montagne, Ann. Sci. Nat. Bot. 279 (1841); Ando et Seki, Hikobia 3 (2): 80-84, f. 1-3 (1962).

Glossadelphus recurvo-marginatus Dixon et Sakurai, Bot. Mag. Tokyo 50: 620, f. 10 (1936).

Sakurai noted a collection of the plant from Formosa in 1941.

Loc. **Taitung:** Tawu Shan, Chinshan Hsiang.

Hab. On bark of tree.

Distr. Ryukyu, Japan, Viet-Nam, Laos, Ceram, Halmahera, Java, S-India, Ceylon.

Theliaceae

Myurella julacea (Villars) B.S.G., Bryol. Eur. Fasc. 46-47, Mon. (1851); Nakanishi, Hikobia 3(4): 325 (1963).

Hypnum julaceum Villars, Hist. Pl. Dauph. 3: 909 (1789).

Leskeia julacea Schwaegrichen. Schultes Reise auf d. Glockner 2: 363 (1804).

Loc. **Nantow:** Yu Shan, Hsini Hsiang, alt. 3850 m.

Hab. On soil in crevice of rock in sheltered place.

Distr. China and Japan, Europe, North America; circumboreal.

Fabroniaceae

Habrodon leuchotrichus (Mitten) Persson, Svensk. Bot. Tidskr. 40: 319 (1946); Nakanishi Hikobia 3(4): 325 (1963).

Heterocladium leuchotrichus Mitten, Trans. Linn. Soc. Bot. 3, 3: 176 (1891).

The genus is a new addition to the flora of Formosa.

Loc. **Nantow:** Yu Shan, Hsini Hsiang, alt. 3600 m.

Hab. On bark of *Rhododendron pseudochrysanthum* in scrub covering the rocky lower slope of the peak of Yu Shan.

Distr. Asia, Europe, North America; circumboreal.

Leskeaceae

Pseudoleskeopsis japonica (Sullivant et Lesquereux) Iwatsuki, Journ. Hattori Bot. Lab. 29: 58 (1966).

Hypnum japonicum Sullivant, in Perry, Narr. Exp. China Japan 2: 330 (1857).

Hypnum orbiculatum Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 84 (1859).

Leskeia orbiculata Mitten, Journ. Linn. Soc. Bot. 8: 154 (1864).

Lasia fruticella Mitten, Trans. Linn. Soc. Bot. 3, 3: 175 (1891).

Pseudoleskeopsis orbiculata (Mitten) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 1003 (1908).

Pseudoleskeopsis fauriei Brotherus, Philip. Journ. Sci. Bot. 13: 214 (1918).

Pseudoleskeopsis tsunodae Brotherus, mss.

Loc. **Taipei:** Karobetzu, alt. 300 m.; **Hsinchu:** Luchangta Shan, Chingchuan—Naoliao, Wufeng Hsiang, alt. 1000 m. (C. K. Wang-1513, Mar. 30, 1962); **Taitung:** Hsinhua Tsun, Tajen Hsiang, alt. 750 m. (C. K. Wang-807, Aug. 4, 1960).

Hab. On rock in evergreen hardwood forest.

Distr. Japan and Khasia.

Thuidiaceae

Haplohymenium longinerve (Brotherus) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 986 (1907); Watanabe, Journ. Jap. Bot. 39(9): 272 (1964).

Anomodon longinervis Brotherus, Hedwigia 38: 243 (1899).

Anomodon aculeatus Paris et Brotherus, Rev. Bryol. 31: 56 (1904).

Haplohymenium biforme Brotherus, Bull. Soc. Bot. Geneve 3: 281 (1911).

Haplohymenium crassum Sakurai, Bot. Mag. Tokyo 47: 337 (1933).

Haplohymenium spinosum Noguchi, Journ. Jap. Bot. 13: 789 (1937).

Loc. **Nantow:** Hohuan Shan, Jenai Hsiang, alt. 2985 m.

Hab. On trunk of *Buxus* sp.

Distr. Japan and Korea.

Claopodium gracillimum (Cardot et Theriot) Noguchi, Journ. Hattori Bot. Lab. 27: 33 (1964); Watanabe, Journ. Jap. Bot. 39(9): 272 (1964).

Diaphanodon? gracillimus Cardot et Theriot, Acad. Geogr. Bot. 18: 2 (1908).

Loc. **Nantow:** Tuikuan, Hsini Hsiang, alt. 1760 m.

Hab. On trunk of tree.

Distr. Ryukyu and Japan.

Thuidium lepidotiaceum Sakurai, Bot. Mag. Tokyo 60: 88 (1947); Watanabe, Journ. Jap. Bot. 39(9): 273 (1964).

Loc. **Kaohsiung:** Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2630 m.

Hab. On rock.

Distr. Japan.

Amblystegiaceae

Cratoneuron filicinum (Hedwig) Spruce, Cat. Musc. Amaz. And. 21 (1867); Nakanishi Hikobia 3(4): 319, 320 & 326 (1963).

Hypnum dubium Necker, Meth. Musc. 161 (1771).

Hypnum affine Hoffmann, Deutsch. Fl. 2: 61 (1795).

Hypnum extricatum Hoffmann, Deutsch. Fl. 2: 61 (1795).

Hypnum compressum Bridel, Musc. Rec. 2, P. 2, 58 (1801).

Hypnum filicinum Hedwig, Spec. Musc. Frond. 285, t. 76, f. 5-10 (1801).

Amblystegium filicinum De Notaris, Epilogo 150 (1869).

Loc. **Nantow:** Tungpu, Hsini Hsiang, alt. 1100 m., and Lolo, Hsini Hsiang, alt. 1600 m.; **Kaohsiung:** Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2670 m.

Hab. On wet rock near stream or on rock submerged in running water in creek.

Distr. China, Japan, Nepal, Pakistan, Europe, North America; almost cosmopolitan.

Drepanocladus uncinatus (Hedwig) Warnstorff, Beih. Bot. Centralbl. 13: 397 (1903); Noguchi Journ. Jap. Bot. 35(10): 304 (1960).

Hypnum aduncum Linnaeus, Spec. Plant 1126 (1753).

Hypnum uncinatum Hedwig, Spec. Musc. Musc. Frond. 289 (1801).

Amblystegium uncinatum De Notaris, Epilogo 141 (1869).

Amblystegium aduncum (Linnaeus) Lindberg, Musc. Scand. 33 (1879).

Loc. **Chiai:** Ali Shan, Yushankou—Yushan Peak, Wufeng Hsiang; **Nantow:** Yu Shan, Hsini Hsiang, alt. 3600 m.; **Tian:** Taiping Shan, Tatung Hsiang.

Hab. On humus and decayed log and on bark of *Rhododendron pseudochrysanthum* in scrub covering the rocky lower slope of the peak of Yu Shan.

Distr. China, Japan, Central, Northern, and East Asia, Pakistan, Himalayas, Caucasus, Europe, Spitzbergen, North America, South America, Australia, New Zealand, Kerguelen; almost cosmopolitan.

Hygrohypnum sp. Nakanishi, Hikobia 3(4): 326 (1963).

This genus is a new addition to the flora of Formosa.

Loc. **Kaohsing:** Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2670 m.

Hab. On wet rock near stream in shaded place.

Brachytheciaceae

Brachythecium pinnatum Takaki, Journ. Hattori Bot. Lab. 15: 6, f. 9, 9-19 (1955); Nakanishi, Hikobia 3(4): 321 (1963).

Loc. **Nantow:** Lolo-Tuikuan, Hsini Hsiang, alt. 1920 m.

Hab. On wet rock in evergreen hardwood forest.

Distr. Japan.

Brachythecium procumbens (Mitten) Jaeger, Adumbr. 2: 409 (1876-77); Nakanishi, Hikobia 3(4): 319 (1963).

Hypnum (Brachythecium) procumbens Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 79 (1859).

Loc. **Nantow:** Tungpu, Hsini Hsiang, alt. 1100 m.

Hab. On wet rock near stream in shaded place.

Distr. Japan, Korea, Nepal, and Kashmir.

Brachythecium sakuraii Brotherus, Ann. Bryol. 1: 24 (1928); Nakanishi, Hikobia 3(4): 321 (1963).

Loc. **Nantow:** Lolo-Tuikuan, Hsini Hsiang, alt. 1920 m

Hab. On wet rock in evergreen hardwood forest.

Distr. Japan.

Brachythecium sapporense (Bescherelle) Takaki, Journ. Hattori Bot. Lab. 15: 45, f.23, 19-23 (1955); Nakanishi, Hikobia 3(4): 321 (1963).

Brachythecium collinum Schlechten var. *sapporense* Bescherelle, Ann. Sci. Nat. ser. 7, Bot. 17: 373 (1893).

Loc. **Nantow:** Lolo-Tuikuan, Hsini Hsiang, alt. 1920 m.

Hab. On rotten wood on forest floor in evergreen hardwood forest.

Distr. Japan.

Brachythecium wichurae (Brotherus) Paris, Bull. Herb. Boiss. ser. 2, **2:** 931 (1902); Nakanishi, Hikobia **3(4):** 319 (1963).

Hypnum (Brachythecium) wichurae Brotherus, Hedwigia **38:** 239 (1899).

Brachythecium wichurae Brotherus var. *robusta* Brotherus, Symb. Sinic. **4:** 106 (1929).

Brachythecium kiusianum Sakurai, Bot. Mag. Tokyo **46:** 381 (1932).

Loc. **Nantow:** Tungpu, Hsini Hsiang, alt. 1100 m.

Hab. On wet rock near stream in shaded place.

Distr. China and Japan.

Eurhynchium celebicum (Bosch et Lacoste) Bartram, B. P. Bishop Mus. Bull. **101:** 217, f. 161 (1933); Yang & Lee, Bot. Bull. Acad. Sinic. n. ser. **5(2):** 184 (1964).

Hypnum celebicum Bosch et Lacoste, Byrol. Jav. **2:** 159 (1867).

Rhynchostegium celebicum (Bosch et Lacoste) Jaeger, Adumbr. **2:** 440 (1876-77).

Loc. **Nantow:** Chitou, Luku Hsiang, alt. 1100 m.

Hab. On decaying wood.

Distr. Philippines, Thailand, Viet-Nam, Celebes, Java, Sumatra, New Guinea, Hawaii.

Plagiotheciaceae

Stereophyllum ligulatum (C. Mueller) Jaeger, Adumbr. **2:** 541 (1877-78); Iwatsuki, Journ. Jap. Bot. **39(6):** 180 (1964).

Hypnum ligulatum C. Mueller, Bot. Zeit. 438 (1856).

Stereophyllum pygmaeum Paris et Brotherus, Rev. Bryol. **34:** 48 (1907).

Stereophyllum formosanum Iwatsuki, in herb.

Loc. **Nantow:** upstream area of Aliputang Chi, Wangmei Tsun, Hsini Hsiang, alt. 1200 m. (C. K. Wang-1452 & 1445*, Aug. 16, 1961).

Hab. On large branches of broad-leaved tree and on liana in evergreen hardwood forest.

Distr. Viet-Nam and India.

Plagiothecium neckeroideum B.S.G., Bryol. Eur. Fasc. 48, Mon. 16, pl. 506 (1851); Nakanishi, Hikobia **3(4):** 324 (1963).

Loc. **Nantow:** Patungkuan-Yushan Peak, Hsini Hsiang, alt. 3200 m.

Hab. On forest floor in subalpine conifer forest.

Distr. Japan, Nepal, Sikkim, Europe.

Sematophyllaceae

Clastobryum glomerato-propaguliferum Toyama, Acta Phytotax. Geobot. **4:** 214 (1935);

* The number of the Formosan specimen in question was published by Iwatsuki as "1455" which is actually wrong and has to be noted and corrected here.

Nakanishi, Hikobia 3(4): 325 (1963).

Loc. **Nantow:** Yu Shan, Hsini Hsiang, alt. 3500 m.

Hab. On bark or stem of *Rhododendron pseudochrysanthum* in scrub covering the rocky lower slope of the peak of Yu Shan.

Distr. Japan.

Clastobryella kusatsuensis (Bescherelle) Iwatsuki, Journ. Hattori Bot. Lab. 26: 72 & 73, f. 4 (1963).

Isopterygium kusatsuense Bescherelle, Oefv. Kongl. Vet.-Soc. Foerhandl. 2: 294 (1900).

Clastobryum tsunodae Brotherus et Yasuda, Oefv. Finsk. Vet.-Soc. Foerhandl. 62: 26 (1921).

Clastobryella tsunodae (Brotherus et Yasuda) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 2, 11: 407 (1952).

Loc. **Taichung:** mountainous region; **Nantow:** Lolo-Tuikuan, Hsini Hsiang, alt. 1900 m.

Hab. On trunk of deciduous tree in evergreen hardwood forest.

Distr. Japan.

Mastopoma perundulatum (Dixon) Horikawa et Ando, Nature & Life in Southeast Asia 3: 34-35, f. 7 (1964).

Trismegistia undulata Brotherus et Yasuda, Rev. Bryol. 53: 4 (1926).

Trismegistia perundulata Dixon, Ann. Bryol. 9: 69 (1936)

This genus is a new addition to the flora of Formosa.

Loc. **Chiai:** Ali Shan, Wufeng Hsiang, alt. 2300 m., and Tzechung, Wufeng Hsiang, alt. 2500 m.; **Nantow:** Patungkuan, Hsini Hsiang, alt. 2800 m.; **Pingtung:** Tawu Shan, Taiwu Hsiang.

Hab. On decaying log.

Distr. Thailand and Laos.

Chionostomum rostratum (Griffith) C. Mueller, Linnaea 36: 21 (1870-71); Nakanishi, Hikobia 3(4): 325 (1963).

Neckera rostrata Griffith, Not. 456 (1849).

Loc. **Nantow:** Yu Shan, Hsini Hsiang, alt. 3600 m.

Hab. On branch of *Rhododendron pseudochrysanthum* in scrub covering the rocky lower slope of the peak of Yu Shan.

Distr. Philippines, Sikkim, Khasia, Coorg, Ceylon.

Brotherella fauriei (Cardot) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 2, 11: 425 (1925); Nakanishi, Hikobia 3(4): 321 (1963).

Acanthocladium fauriei Cardot, Bull. Soc. Bot. Geneve 4: 382 (1912).

Brotherella aurea Sakurai, Bot. Mag. Tokyo 60: 86 (1947).

Loc. **Nantow:** Tuikuan, Hsini Hsiang, alt. 2300 m.

Hab. On forest floor in hardwood and conifer mixed forest.

Distr. Japan.

Brotherella herbacea Sakurai, Bot. Mag. Tokyo 63: 82 (1950); Nakanishi, Hikobia 3(4): 321, 323, & 326 (1963).

Loc. **Nantow:** Tuikuan, Hsini Hsiang, alt. 2300 m.; **Kaohsiung:** Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2600 m.

Hab. On culm of alpine bamboo near stream in conifer forest and on rock in shaded place.

Distr. Japan.

Brotherella recurvans (Michaux) Fleischer, Nova Guinea 12: 120 (1914); Nakanishi, Misc. Bryol. Lichenol. 3(5): 71 (1964).

Loc. **Nantow:** Yu Shan, Hsini Hsiang, alt. 3500 m.

Hab. On basal part of stem of *Rhododendron pseudochrysanthum* in scrub covering the rocky lower slope of the peak of Yu Shan.

Distr. Eastern North America.

Brotherella yokohamae (Brotherus) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 2, 11: 425 (1925); Nakanishi, Hikobia 3(4): 321 & 323 (1963).

Stereodon yokohamae Brotherus, Hedwigia 38: 232 (1899).

Loc. **Nantow:** Lolo-Tuikuan, Hsini Hsiang, alt. 1920 m., and Patungkuan, Hsini Hsiang, alt. 3000 m.

Hab. On wet rock, humus, as well as rotten wood in forest,

Distr. Japan.

Acroporium diminutum (Bridel) Fleischer, Laubmfl. Java 4: 1274 (1918); Nakanishi, Hikobia 3(4): 326 (1963).

Dicranum diminutum Bridel, Bryol. Univ. 1: 814 (1826).

Hypnum subulatum Hampe, Ic. Musc. 1, pl. 9 (1844).

Loc. **Kaohsiung:** Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2600 m.

Hab. On culm of alpine bamboo near stream in conifer forest.

Distr. Philippines, Japan, Sumatra, Java, Moluccas Islands.

Hypnaceae

Hypnum reptile Richard et Michaux, Fl. Amer. Boreal. 2: 315 (1803); Nakanishi, Hikobia 3(4): 324 & 325 (1963).

Loc. **Nantow:** Yu Shan, Hsini Hsiang, alt. 3200-3500 m.

Hab. On trunk of tree in fir forest and on basal portion of stem of *Rhododendron pseudo-chrysanthum* in scrub covering the rocky lower slope of the peak of Yu Shan.

Distr. China, Japan, Europe, North America; circumboreal.

Isopterygium pohliaecarpum (Sullivant et Lesquereux) Mitten, Trans. Linn. Soc. Bot. 3: 176 (1891); Iwatsuki, Journ. Hattori Bot. Lab. 26: 71, 72, & 73 (1963),

Hypnum pohliaecarpum Sullivant et Lesquereux, Proc. Amer. Acad. Arts Sci. 4: 280 (1859).

Rhynchostegium textori Lacoste, Ann. Mus. Bot. Lugd.-Batavi 2: 299 (1865-66).

Isopterygium textori (Lacoste) Mitten, Trans. Linn. Soc. Bot. 3: 176 (1891).

Isopterygium perchlorosum Brotherus, in Mazzetti, Symb. Sinic. 4: 125 (1929).

Loc. **Taipei:** Karobetsu, alt. 300 m.

Hab. On wet ledge or on rock in shaded place.

Distr. China, Philippines, Japan, Viet-Nam, Malay Pen., Borneo.

Taxiphyllum pilosum (Brotherus et Yasuda) Iwatsuki, Journ. Hattori Bot. Lab. 26: 67 (1963).

Plagiothecium pilosum Brotherus et Yasuda, Rev. Bryol. Lichenol. 53: 3 (1926).

Loc. Hualien Kang.

Hab. Unknown.

Distr. Japan.

Taxiphyllum subarcuatum (Brotherus) Iwatsuki, Journ. Hattori Bot. Lab. 26: 67 (1963).

Homalia subarcuata Brotherus, Hedwigia 38: 299 (1899).

Isopterygium subarcuatum (Brotherus) Noguchi, Journ. Jap. Bot. 20: 148, f. 3 (1944).

Loc. **Taipei:** Wulai, Wulai Hsiang.

Hab. On trunk of tree in evergreen hardwood forest.

Distr. Japan.

Ctenidium lychnites (Mitten) Brotherus, in E. & P., Pflanzenfam. ed. 1, 3: 1048 (1908);

Yang & Lee, Bot. Bull. Acad. Sinica, n. ser. 5(2): 184 (1964).

Stereodon lychnites Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 114 (1859).

Loc. **Nantow:** Fenghuang Shan (Mt. Phenix), Chitou, Luku Hsiang, alt. 1650 m.

Hab. On rocks and trees in evergreen hardwood forest.

Distr. Philippines, Khasia, Nilghiris, and Ceylon.

Hylocomiaceae

Neodolichomitria robusta (Brotherus) Noguchi, Bryologist 69: 232, f. 1-6 (1966).

Penzigella (?) *robusta* Brotherus, Sitzungsber. Akad. Wiss. Wien, Abt. 1, 131: 216 (1912).

Neodolichomitria gigantea Noguchi, Journ. Jap. Bot. 13: 92, f. 4 (1937).

Loc. **Ilan:** Taiping Shan, Tatung Hsiang, alt. 2200 m.

Hab. On humus in forest.

Distr. China.

Gollania philippinensis (Brotherus) Noguchi, Acta Phytotax. Geobot. 20: 241 (1962); Nakanishi, Hikobia 3(4): 319, 321, & 326 (1963).

Elmeriobryum assimile Brotherus, Leafl. Philip. Bot. 6: 1975 (1913).

Elmeriobryum philippinense Brotherus, Leafl. Philip. Bot. 6: 1974 (1913).

Elmeriobryum brotheri Williams, Bull. N. Y. Bot. Garden 8: 366 (1914).

Loc. **Nantow:** Tungpu—Patungkuan, Hsini Hsiang, alt. 1100-2300 m.; **Kaohsiung:** Yu Shan, upstream area of Lonung Chi, Taoyuan Hsiang, alt. 2670 m.

Hab. On soil in evergreen hardwood forest or on forest floor in hardwood and conifer mixed forest, and on wet rock near stream in conifer forest.

Distr. Philippines.

Gollania ruginosa (Mitten) Brotherus, in E. & P., Nat. Pflanzenfam. ed. 1, 3: 1055 (1908); Nakanishi, Hikobia 3(4): 321 (1963).

Hyocomium ruginosa Mitten, Trans. Linn. Soc. Lond. ser. 2, Bot. 3: 182 (1891).

Gollania perundulata Dixon, in Dixon et Theriot, Rev. Bryol. 13: 17 (1942).

Loc. **Nantow:** Patungkuan, Hsini Hsiang alt. 2300 m.

Hab. On forest floor in hardwood and conifer mixed forest.

Distr. Japan and Himalaya.

Polytrichaceae

Oligotrichum aligerum Mitten, Journ. Linn. Soc. Lond. Bot. 8: 48, pl. 8 (1865); Osada, Journ. Hattori Bot. Lab. 29: 33, f. 16 (1966).

Pogonatum suzukii Brotherus, Ann. Bryol. 1: 26 (1928).

Oligotrichum formosanum Noguchi, Trans. Nat. Hist. Soc. Formosa 24: 294, f. 1 (1934).

Loc. **Taichung:** Anma Shan, Hoping Hsiang, alt. 2500 m. (C. K. Wang-693a, Feb. 17, 1960); **ilan:** Tayuan Shan, Tatung Hsiang, alt. 2000 m. (C. K. Wang-318, Aug. 7, 1959).

Hab. On rock in shaded place and on forest floor in hemlock forest with undergrowth of alpine bamboo.

Distr. Philippines, Japan, North America and Mexico.

Pogonatum nudiusculum Mitten, Journ. Linn. Soc. Bot. Suppl. 1, 153 (1859); Yang & Lee, Bot. Bull. Acad. Sinica, n. ser. 5(2): 182 (1964).

Loc. **Nantow:** Chitou, Luku Hsiang, alt. 1300-1600 m.

Hab. On sandy soil.

Distr. Philippines, Sikkim and Bhutan.

Pogonatum wallisi (C. Mueller) Jaeger, Adumbr. 1: 722 (1873-74); Yang & Lee, Bot. Bull. Acad. Sinica, n. ser. 5(2): 182 (1964).

Polytrichum wallisi C. Mueller, Linnaea 37: 171 (1872).

Loc. **Nantow:** Chitou, Luku Hsiang, alt. 1800 m.

Hab. On wet ground.

Distr. Philippines and Borneo.

Polytrichum commune Hedwig var. *swartzii* (Hartmann) Moenck., in Rabenhorst, Krypt. Fl. ed. 2, 4: 914 & 919 (1927); Osada, Journ. Hattori Bot. Lab. 29: 14-16, f. 7 (1966).

Polytrichum swartzii Hartmann, Handb. Skand. Fl. ed. 5, 361 (1849).

Polytrichum commune Hedwig subsp. *swartzii* Hartmann, Handb. Skand. Fl. ed. 9, 2: 43 (1864).

Polytrichum paludicola Cardot, Bull. Soc. Bot. Geneve, ser. 2, 1: 131 (1909).

The writer has no way of knowing the locality and the habitat of the Formosan plant.

Distr. Japán, Europe, Greenland, and North America.

Polytrichum formosum Hedwig var. *densifolium* (Mitten) Osada, Journ. Hattori Bot. Lab. 29: 19-21, f. 10 (1966).

Polytrichum densifolium Mitten. Journ. Linn. Soc. Bot. Suppl. 1, 155 (1859).

Loc. **Miaoli:** Touying Shan—Huoshih Shan, Taian Hsiang, alt. 3100 m. (C. K. Wang-1336, May 11, 1961); **Taichung:** Anma Shan, Hoping Hsiang, alt. 2200 m. (C. K. Wang-1431, May 16, 1961), Tahsueh Shan—Hsiaohsueh Shan, Hoping Hsiang, alt. 2800 m. (C. K. Wang-1425, May 16, 1961), Houshish Shan—Hsueh Shan*, Hoping Hsiang, alt. 3100 m. (C. K. Wang-1340, May 12, 1961); **ilan:** Taiping Shan, Tatung Hsiang; **Hualien:** Tailuko Shan, Hsiulin Hsiang.

Hab. On soil in shaded place, on humus in hemlock forest with luxuriant undergrowth of alpine bamboo or on border of alpine grassland dominated by alpine bamboo, and on rock in

* Known also as Mt. Sylvia.

hemlock and fir mixed forest with luxuriant undergrowth of alpine bamboo.

Distr. Japan and Himalayas.

臺灣近年發現之苔類植物新記錄種

王 忠 魁

近年曾有日本與美國薜苔植物學者先後專程來臺採集薜苔植物標本，收穫頗多。因之國內方面對之亦漸感興趣，或從事採集，或着手專題研究。結果促成本島多數新記錄種之發現。惟此等新記錄種係由多數苔類植物學者於近年在不同之植物學雜誌或期刊中零星發表，一時難窺全豹，且其資料亦欠完整。筆者有見及此，爰就個人所知並根據個人實地採集調查所獲有關資料，撰就此文，藉行補充臺灣苔類植物目錄，俾供同好參攷。

MOSSES RECENTLY FOUND IN FORMOSA

Chung K'uei Wang

In recent years a number of bryologists made some important contributions to the knowledge of the bryophyte flora of Formosa. Among the mosses reported recently from this area 107 species in 59 genera or 25 families had not previously been known to occur in Formosa. The present publication, as a supplement of the moss flora of Formosa, is primarily to bring together the knowledge resulting from many scattered and fragmentary sources.
