Mrt building

用混血策略打開兩側都市的立面產生流動
將原本都市的背面轉成為都市的正立面

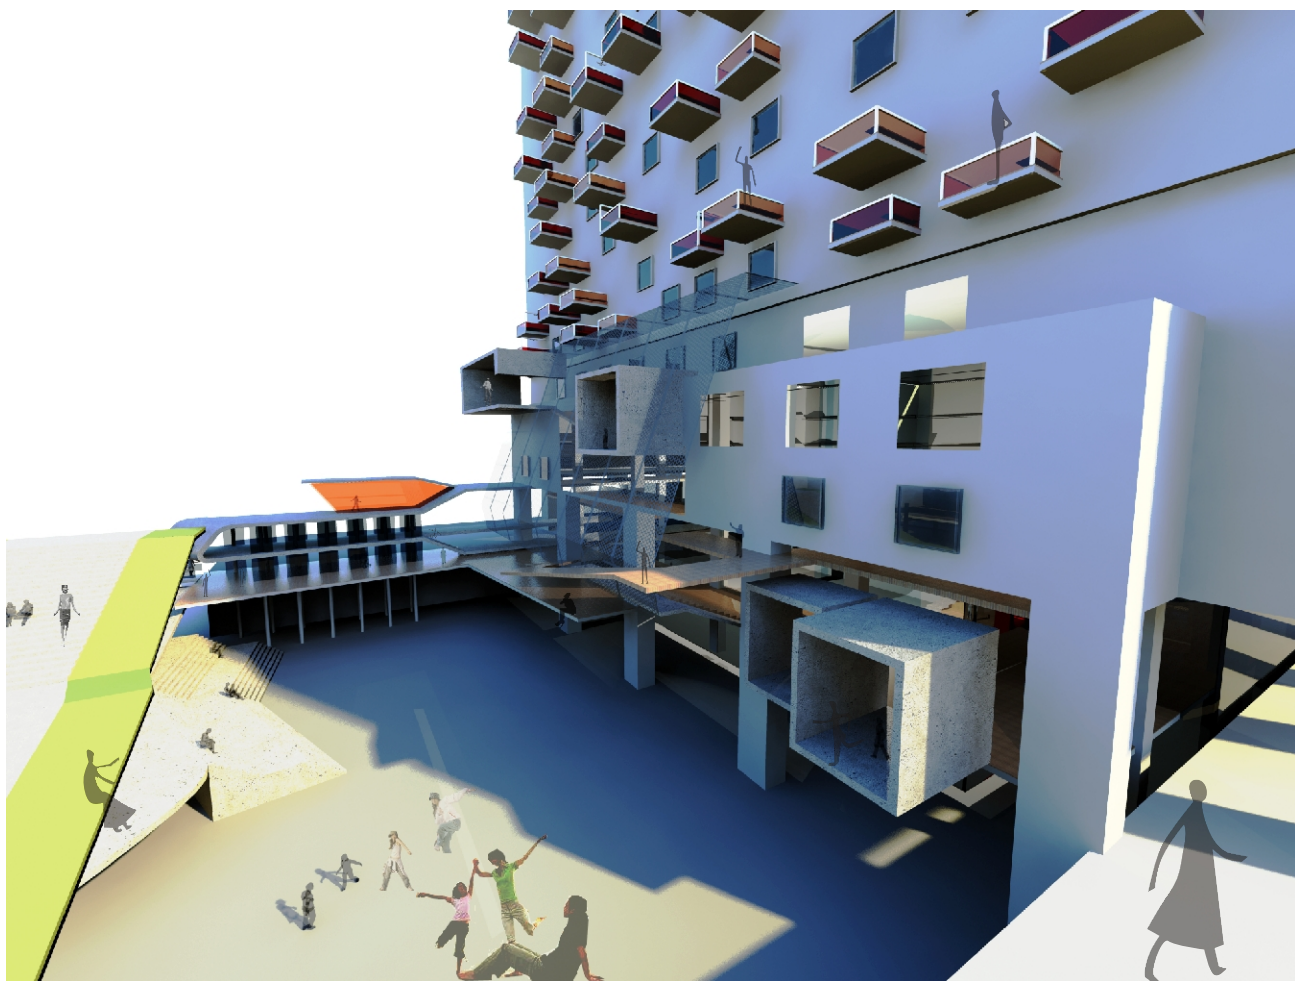

The hybrid strategy allows opening the elevations of either side,
creating movement and transforming the backs of the city into fronts

重新定義新的立面廣場--捷運museum的參觀者,捷運上班族與跳舞的遊蕩者在此圍塑出新的廣場
 Redefinition of the new square's elevation, serving visitors to MRT Museum, commuters and the drifting dancers.

展覽空間附加在原挑空的位置 打破原僵硬的展示空間,人群開始在大樓內上上下下活動
 The display area is attached to the original void, disrupting the existing rigid display area.
 The crowd moves up and down within the building.

建築不再只是單一的系統開始跟周邊相混血連成一個網絡
Architecture becomes a network with the surrounding, no longer serves as a single system.

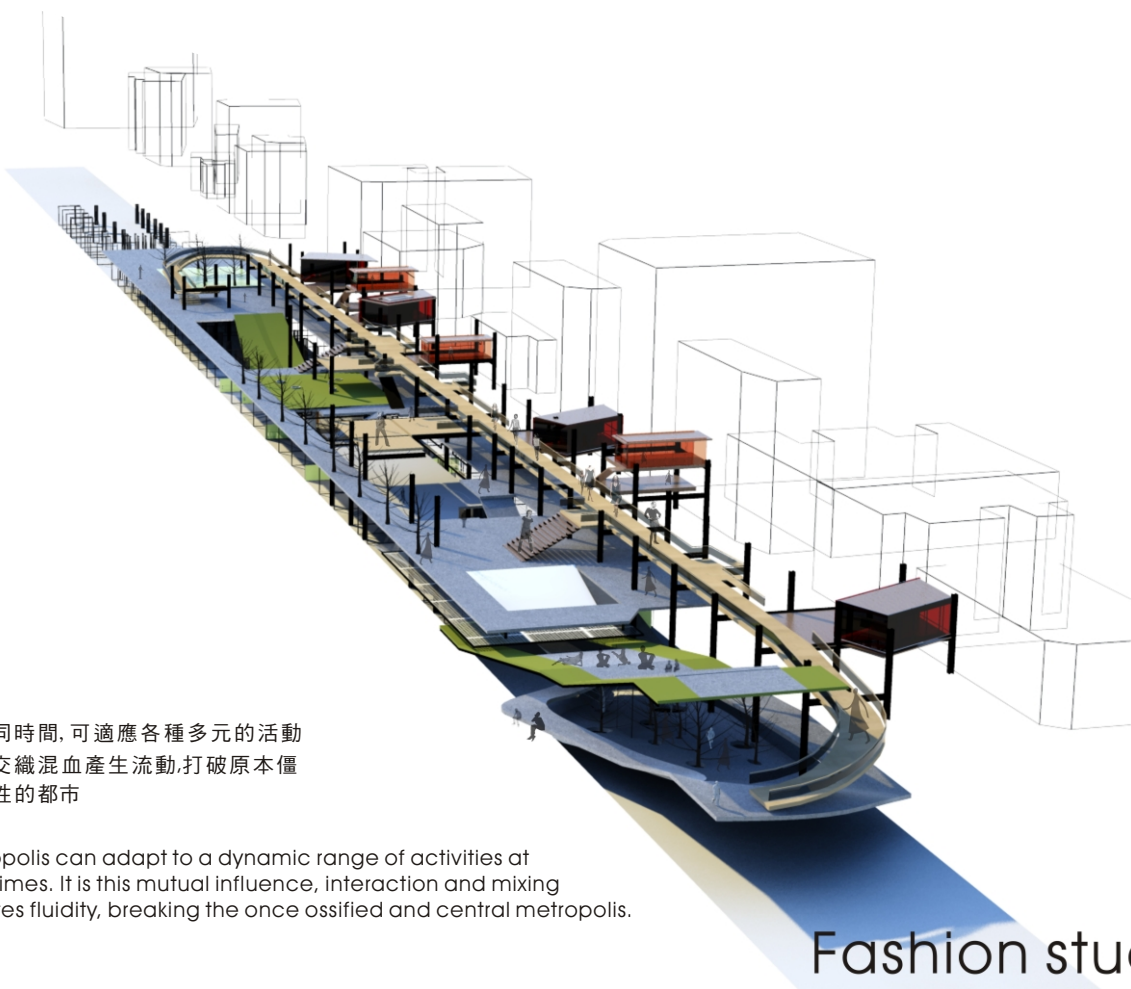

Urban Hybrid in Between space

SUNDAY
PM2:30

都市在不同時間,可適應各種多元的活動
互相影響交織混血產生流動,打破原本僵
化與中心性的都市

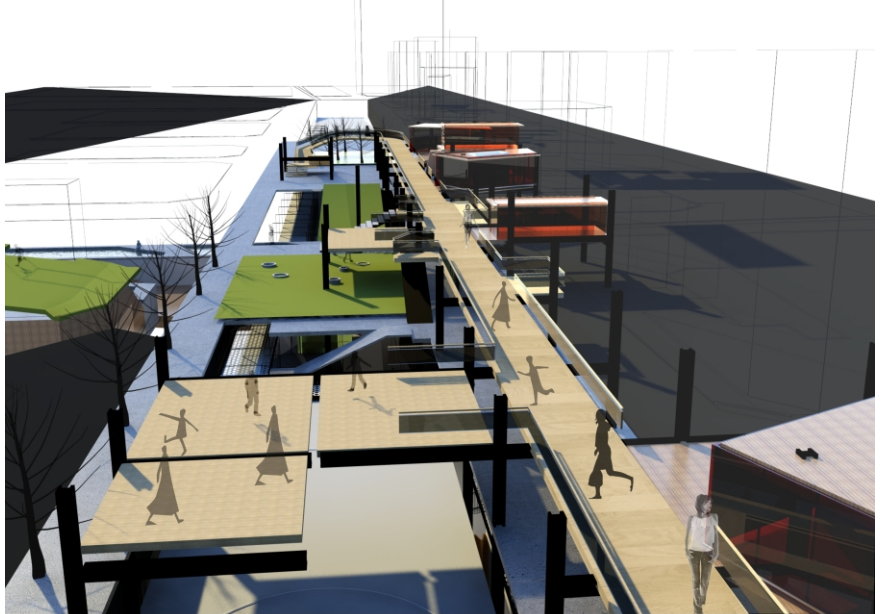

The metropolis can adapt to a dynamic range of activities at different times. It is this mutual influence, interaction and mixing that creates fluidity, breaking the once ossified and central metropolis.

FRIDAY
PM 5:30

Urban Hybrid in Between space

捷運上下的layer因混血策略開始打開
空間不再是單一走廊型的空間,新加入
的混血map與機制,產生了新的化學反
應,改變了捷運與兩邊街廓的關係

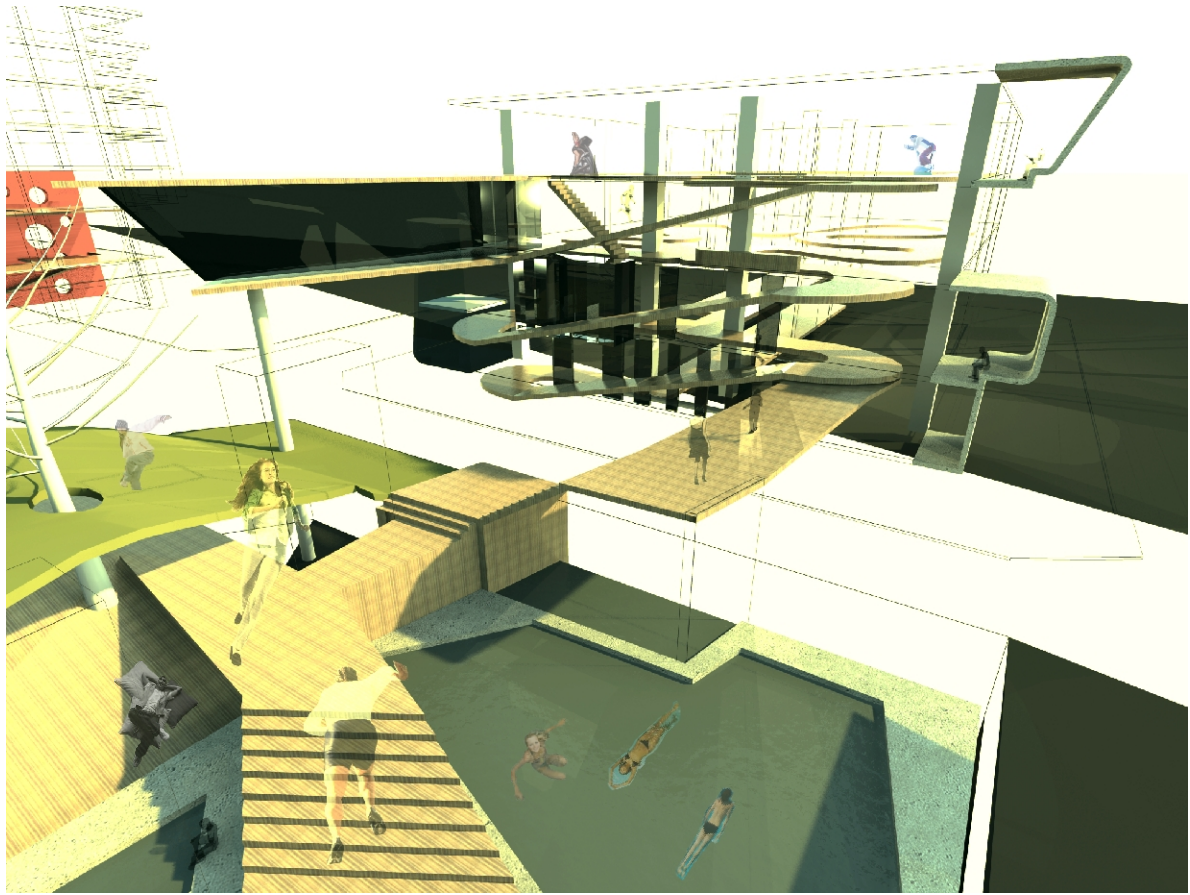

The upper and lower layers of the MRT begin to open up because of the hybrid strategy. Spaces are no longer typified as a single corridor space. New chemical reactions occurred with the addition of the hybrid map and mechanism, hence changing the relationship between the MRT and its surrounding streetscapes.

Urban Hybrid in Between space

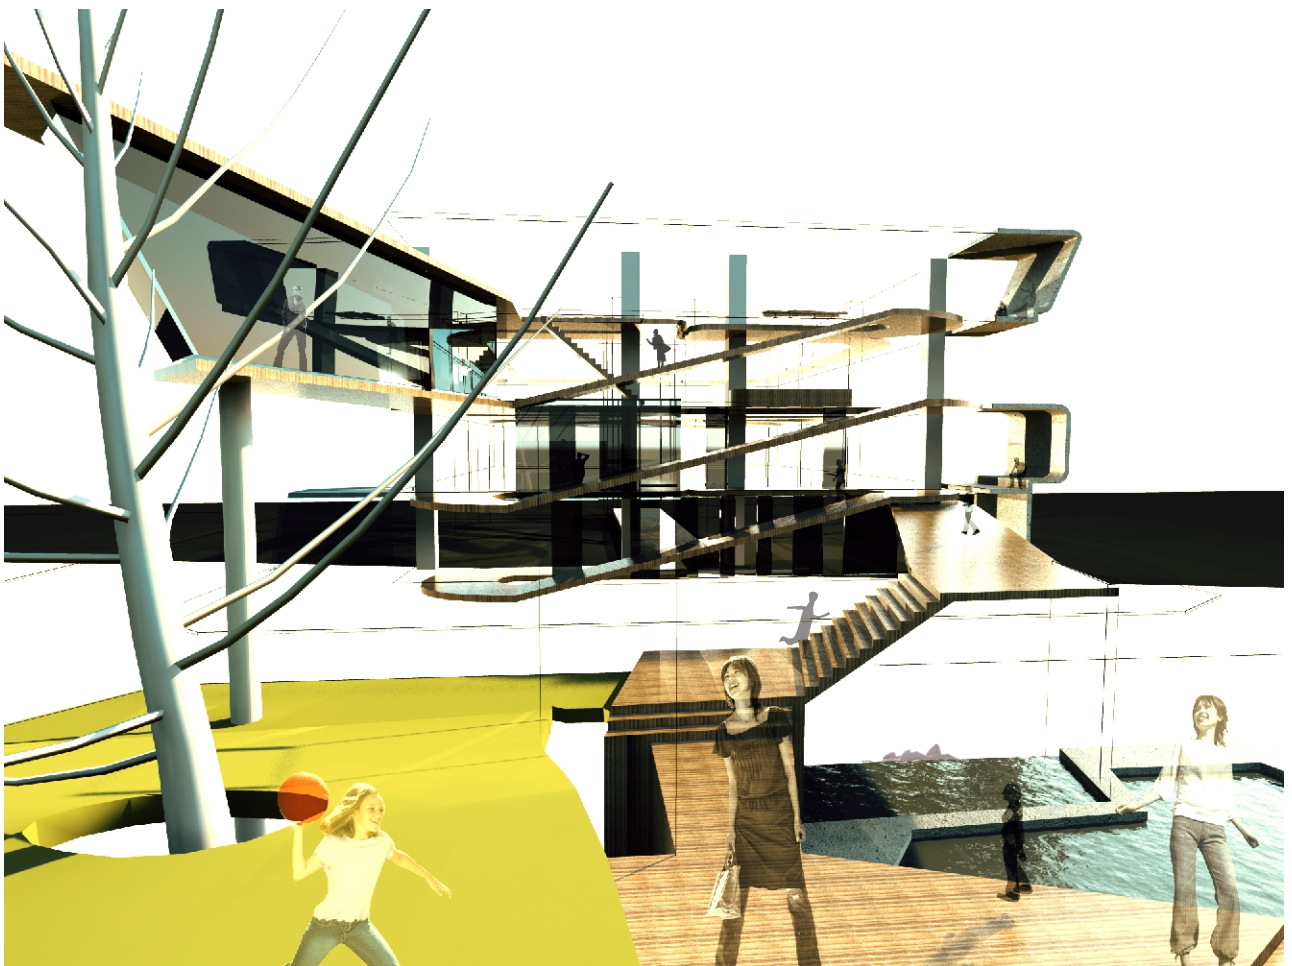

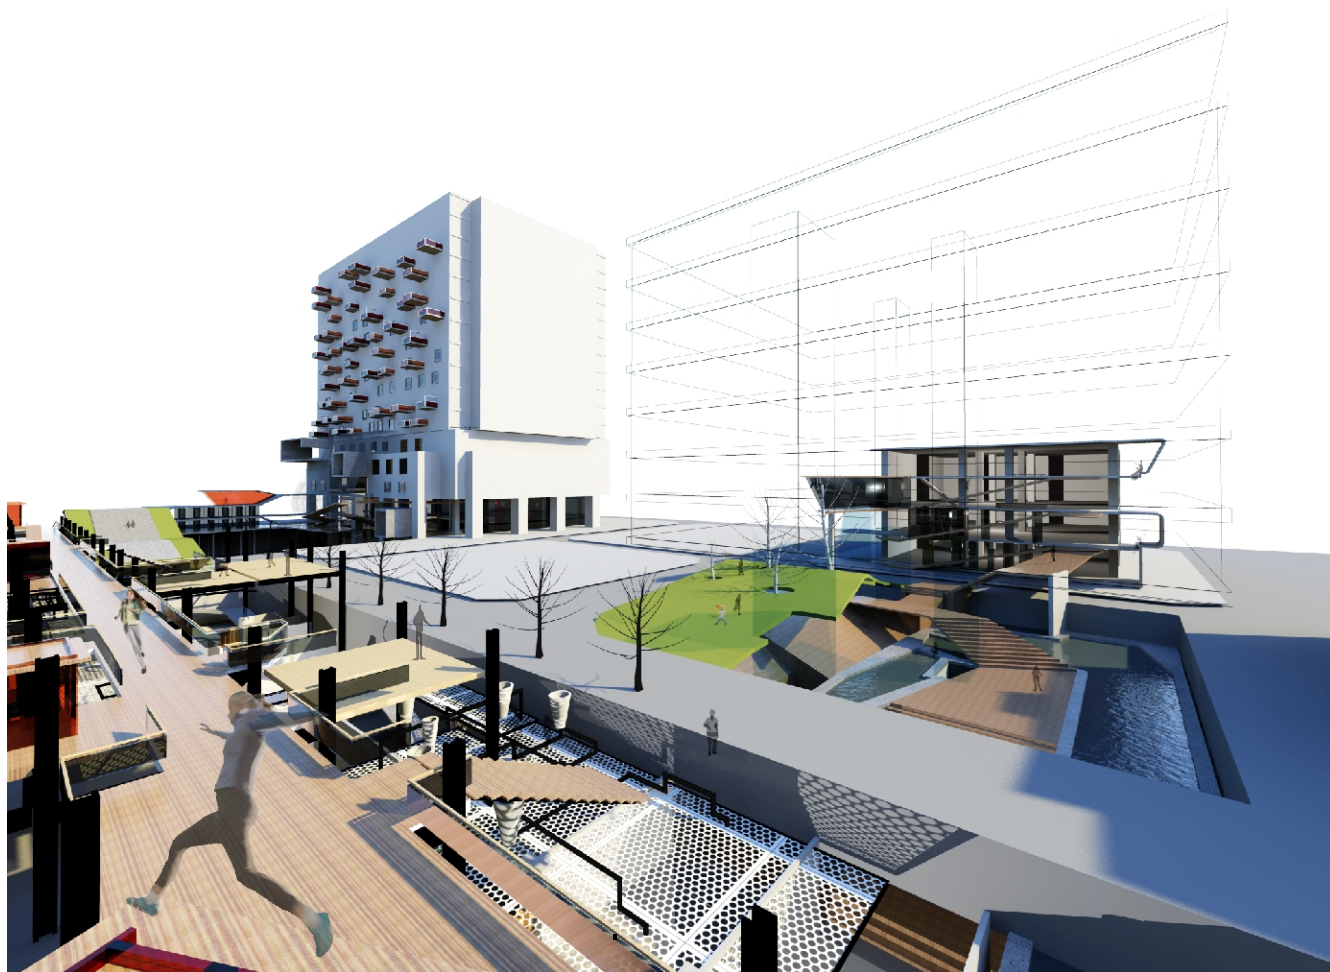

新型態的辦公空間與市民運動中心跟捷運地下街開始創造出新型態的都市空間,打破建築物與都市樹枝狀的層級系統

The offices in their new state, the citizen exercise centre and the MRT underground street combined creating new urban spatial types, breaking the tree branch like layer system of the city and buildings.
